

We have two aims

We aim both to minimise food waste and to battle food poverty.

Established in 2021, we have grown to a team of over 60 volunteers.

How we work

Every day we collect, sort and store surplus food from local stores. We distribute surplus through food shares twice each week in Newtown.

We also partner with local family centres, nurseries, schools and community cafés to let them share and use surplus food.

Our Sponsors

The National Lottery Community Fund has supported NFS from the beginning.

NFS is proud to be sponsored by Newtown firm Splosh - the great new way to buy your home cleaning essentials. Always great value, really convenient, and best of all, there's no plastic waste! www.splosh.com

Make a donation

We welcome donations of any amount. Every penny received is spent on reducing waste and battling poverty.

You can donate today via Donorbox by scanning the QR code

Our Hub

At our hub, the incoming food is checked thoroughly before storing. We have a walk-in chiller and many freezers. We aim for optimal storage conditions for fruit, vegetables, bakery items, dairy, meat, and ambient products.

Our Foodshares

Our food shares take place every Monday & Friday, from 10:30am to 11:30am, at the Scout Hall on Park Lane. Check our information on Facebook and come to see for yourself!

Everyone is welcome!

We are now saving about **1 tonne of food every week**. This provides food for over 100 households through foodshares, and reaches many more people around Newtown through our partners.

Food waste has a real impact on the environment. We are saving water used to grow wasted food, energy to transport it, and greenhouse gas emissions when it rots in landfill.
